

Fewer interruptions.
Greater peace of mind.

Get ready for powerful, proactive service support from CLAAS FARMPPOINT.

CLAAS FARMPOINT Service Office Support. The new industry standard.

When you're in the middle of harvest, the last thing you need is an unexpected machine alarm or a surprise maintenance issue. CLAAS FARMPOINT SOS (Service Office Support) was built to help you focus on the task at hand, avoid costly downtime and stay productive when it matters most.

Whether it's updating you on what's happening with your equipment, helping resolve machine alarms or informing you about warranty renewal deadlines or the latest promotions, the CLAAS FARMPOINT SOS team supports you at every step of the process.

Like the CLAAS FARMPOINT support you already rely on, CLAAS FARMPOINT SOS is here to make your job easier and your business more successful.

How does it work?

CLAAS FARMPOINT SOS is dedicated to supporting CLAAS FARMPOINT customers by resolving machine code errors, along with direct outreach and support from the CLAAS FARMPOINT tech team on select 2018 or newer units.

Here's what you can expect:

- Proactive service reminders and support from the CLAAS FARMPOINT SOS team
- Enhancements on key features of the services you already enjoy
- Allows you to get ahead of error codes with quick, convenient solutions
- Faster support, less downtime

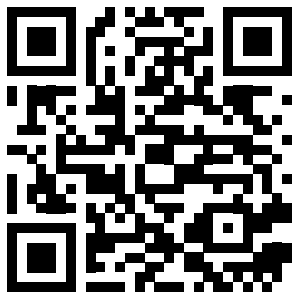

Why our Support Center matters

1. Key enhancements on the services you already enjoy
2. Connects you with live CLAAS FARMPOINT experts to ensure fast, convenient support and solutions
3. Better transparency into the status of machine alarm resolutions
4. More visibility into what is going on with your equipment
5. Timely seasonal reminders about warranties and promotions

The best part? You don't have to do anything.

CLAAS FARMPOINT SOS is set up so you can focus on the work that matters. That means quick, reliable service support that puts you ahead of not only maintenance issues — but also the competition.
